INDUSTRIAL DISPUTES, AUSTRALIA, FEBRUARY 1985

- PHONE INQUIRIES** *for more information about these statistics*—contact Mr Stephen Horn on Canberra (062) 52 7136 or any of our State offices.
other inquiries including copies of publications—contact Information Services on Canberra (062) 52 6627 or in any of our State offices.
- MAIL INQUIRIES** *write to* Information Services, ABS, P.O. Box 10, Belconnen, A.C.T. 2616 or any of our State offices.

MAIN FEATURES

In February 1985, 199,200 working days were lost by 50,300 workers in 179 disputes. This is the highest level of working days lost since April 1983 when 235,900 working days were lost.

More than half of the working days lost in February 1985 occurred in Queensland where employees in several industries stopped work in sympathy with dismissed electricity generation employees.

NOTE: The figures for February 1985 include working days directly lost by Queensland electricity generation employees up until the point of their dismissal. Secondary effects of this dispute and related sympathy stoppages that resulted in working days lost by employees at other establishments stood down or unable to work are not included in the figures.

EXPLANATORY NOTES

Coverage

- The statistics relate only to disputes involving stoppages of work of ten man-days or more at the establishments where the stoppages occurred.
- The figures of working days lost relate to the losses due to industrial disputes (as defined in paragraph 4) and not to aggregate losses for the economy as a whole. Details shown in this publication refer to all disputes in progress during the reference period indicated.
- The statistics of industrial disputes are compiled mainly from data obtained from employers (both private and government) and trade unions concerning individual disputes and from reports of government authorities. Particulars of some stoppages (for example, those involving a large number of establishments) may have been estimated and the statistics therefore should be regarded as giving only a broad measure of the extent of industrial disputes (as defined).

Definitions

- For these statistics an *industrial dispute* is defined as a withdrawal from work by a group of employees or a refusal by an employer or a number of employers to permit some or all of their employees to work, each withdrawal or refusal being made in order to enforce a demand, to resist a demand, or to express a grievance.
- Workers involved* include workers directly and indirectly involved in disputes. Workers indirectly involved are those thrown out of work at the establishments where the stoppages occurred, but who are not themselves parties to the dispute.
- Differences between monthly and annual totals of workers involved can occur due to temporary cessations of stoppages that resume in subsequent months. Workers re-involved in this type of dispute are included in the monthly totals.
- Working days lost* refer to man-days lost by workers directly and indirectly involved in the dispute and figures are generally as reported by parties to the dispute. For some disputes working days lost are estimated on the basis of the number of workers involved and the duration of the dispute.
- Working days lost per 1,000 employees* have been compiled from those lost by workers directly and indirectly involved in disputes involving stoppages of work of ten man-days or more in the establishments where the stoppages occurred. Working days lost in agriculture, etc. and in private households employing staff have been excluded from Tables 4 and 5 but included in Tables 1 to 3.
- The estimates of employees are obtained from the Labour Force survey.

Other ABS publications

- Users may also wish to refer to the following publications:
Industrial Disputes, Australia (6322.0)—issued annually, contains more detailed information including statistics on the cause, method of settlement and duration of industrial disputes.
Labour Statistics, Australia, 1983 (6101.0) (\$6.10, \$7.30 incl. postage)
The Labour Force, Australia (6203.0)—issued monthly (\$1.10, \$1.90 incl. postage)

11. Current publications produced by the ABS are listed in the *Catalogue of Publications, Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Publications Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and Publications Advice are available from any ABS office.

Symbols and other usages

r revised

12. Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

R.J. CAMERON
Australian Statistician
